PENGENALAN

Pada umumnya, anjing adalah sebagai haiwan domestik, dimiliki seperti dengan harta benda, kereta dan kelengkapannya. Di Malaysia, jumlah anjing yang dipelihara untuk berbagai-bagai tujuan adalah semakin meningkat dari tahun ke tahun. Gerompok canine ini diketahui secara umum merupakan haiwan kesayangan kepada manusia berabad-abad lamanya. Anjing berperanan sebagai pengawal, peronda (patrol), pemandu, haiwan kesayangan, pertunjukan, pembanteras penyeludupan, pencegah jenayah, untuk berlumba dan tidak ketinggalan untuk dipertarungkan dalam perjudian haram. Kebijaksanaan haiwan ini berbeza di antara setiap baka. Latihan diberikan untuk dijadikan sebagai haiwan sehingga kepada tahap haiwan yang tidak boleh dikawal perilakunya.

Isu-isu haiwan yang tidak terkawal perilakunya terjadi apabila haiwan tersebut tidak menurut arahan dan boleh menyebabkan kecederaan yang dahsyat kepada mangsa. Aliran ini seterusnya menimbulkan keprihatinan terhadap kacukan baka yang mempunyai naluri ganas. Matlamat sasaran adalah untuk menghasilkan sifat genetik yang tidak baik seseekor haiwan. Data yang diperolehi menunjukkan bahawa hanya segelintir baka anjing memperlihatkan sifat yang dinayatakan seperti di atas. Anjing ini dikategorikan dalam kumpulan terlarang atau terhad.

Istilah terlarang merujuk kepada anjing yang naluri semulajadinya adalah deria untuk membunuh manakala yang terhad pula adalah merujuk kepada anjing seperti yang diterangkan dalam garis panduan standard tertentu.

INTRODUCTION

Common world over, whereby dogs, being domestic animals, are owned in the same way as inanimate objects such as cars and furniture. Noted, canine for centuries has been men companion. They are used as guards, patrol, guide, pets, show, drug, criminal, racing and even fighting dogs. The intelligence varies between the breeds. They can be train as loveable pets to the level of non-compliance animal.

The issues of non-compliance are those animals do not take to command and the ability to maximize damaged onto the victims. This trend has brought about the cross-breeding of vicious breeds. The object is to get the worst genetic traits and merge it in an animal. Following a series of attacks on human being by the vicious kind of dogs, law that address this issue need to be implemented world over. From data only certain dog breeds manifest such behaviour. These dogs are categorized as dangerous or ferocious.

The terms dangerous whereby, the dogs are banned and ferocious ment that an animal is condoned by certain set of standard guidelines.

DEFINISI

Anjing Terhad

Restricted Dogs

Anjing yang kebiasaannya dilatih untuk menjalankan tugas-tugas tertentu seperti anjing tentera, polis, kastam atau pengawal. Haiwan ini bertindak berdasarkan arahan tertentu. Segelintir daripada baka ini tidak dilatih tetapi sifat semula jadi menurut kata serta setia kepada arahan pemilik. Justeru itu, anjing tersebut tergolong dalam kategori ini di mana anjing-anjing ini tidak dipelihara sebagai haiwan kesayangan tetapi untuk mengawal harta (persendirian atau individu) iaitu anjing tugasan (working dogs).

These are usually dogs that are trained to perform certain duties. Usually, they are military, police, customs or guard dogs. They act on command. Usually, they are schooled in country of origin. Some of this breeds, are not trained but, by nature are obedient and loyal to their master's command. Therefore, they are placed in this categories. They are not usually kept as pets or companion but to guard their properties (individual).

Anjing Terlarang

Banned Dogs

Anjing yang dikhuatiri akan menyebabkan kecederaan kepada awam walaupun dipelihara dengan baik berdasarkan faktor keturunan dan genetik.

Dangerous Dogs

A dog is proved to be dangerous if it have injured another living animal or attack a human being. Attacking and killing someone would justify the dog to be dangerous.

Ferocious Dogs

A dog is regarded as ferocious if it appears to be untamed and certainly if it is shown to have unusually vicious tendencies. Less extreme behaviour may make the dog liable to be dealt with as a dangerous dog. Dogs may not be listed in either of the list but, can or has the tendency to hurt or maimed victims or other animal.

Anjing Kacukan

Crossbred Dogs

Anjing baka asli yang dikacukkan dengan baka lainnya untuk menghasilkan anjing kacukan pelbagai hibreed.

One connotation of the term "designer dog" is that the breeding is by design, between a deliberately chosen sire and dam, as opposed to an accidental breeding. A few breeders have taken this a step further, breeding a specific crossbreed to others of the same cross, setting a standard, and documenting the ancestry of puppies so bred over generations, in order to create a new breed of dog.

SEKSYEN 1:

Anjing Terhad

Restricted Dogs

Alaskan Malamute

Negara asal : Amerika Syarikat

Ketinggian : 58 - 71 cm

Berat : 39 - 57 kg

Perilaku : Aktif, bersemangat

Alaskan Malamute suatu baka yang staminanya berbanding untuk kelajuannya, tidak seperti kebanyakan baka anjing lain yang dibiakbaka kecil di benua ini. Bulunya yang tebal menjanjikan perlindungan yang baik daripada elemen-elemen tertentu berdasarkan lapisan bulu luarnya yang kasar dan bulu dibawahnya yang berminyak. Warna bulu berbeza-beza iaitu kelabu terang kepada yang lebih gelap iaitu hitam, warna keemasan kepada merah hati. Baka ini dinamakan sempena puak Mahemut, orang Inuit yang tinggal di kawasan barat laut Alaska. Mereka hidup secara berpindah randah dan anjing ini digunakan untuk menarik serta mengangkut barangan milik mereka dari satu tempat ke tempat yang lain.

Catatan

Berdasarkan kepada saiz dan kekuatan yang dimiliki, latihan yang kukuh amat penting dari peringkat awal lagi. Baka ini masih mengekalkan sifat semula jadinya yang mungkin akan membawa kepada perilaku agresif apabila berada bersama dengan anjing lain. Walau bagaimana pun, Alaskan Malamute adalah manja dan penyayang terhadap manusia.

Powerful and strong, this northern dog has been developed for stamina rather than speed, unlike some of the smaller breeds from this part of the world. Its dense, double-layered coat affords excellent protection from the often severe elements, having coarse outer guard hairs over a thick, oily, woolly undercoat. The length of the guard hairs varies, becoming longest over the shoulders and in the vicinity of the neck, as well as down the back. The colour ranges from light grey through intermediate shades to black, or from gold through shades of red to liver. The breed is named after the Malhemut tribe, an Inuit people who lived in the northwest of Alaska. They were nomadic, and the dogs were used to haul their possessions between locations.

REMARKS

Due to its size and considerable strength, firm training an early age is essential. It still retains something of a pack instinct, which may lead to outbreaks of aggressive behaviour when it is in the company of other dogs. However, by nature it is friendly and affectionate to people.

Alaskan Malamute

Country of origin	USA	First use	Pulling sledges	Origins	3000bc
Height	58-71cm (23-28in)	Weight	39-57kg (85-125lb)	Temperament	Active, exuberant

American Staffordshire Terrier

Negara asal : Amerika Syarikat
 Ketinggian : 43 - 48 cm
 Berat : 18 - 23 kg
 Perilaku : Bijak

American Staffordshire Terrier kelihatan seperti Staffordshire Bull Terrier iaitu asal usul keturunannya tetapi ianya lebih tinggi, berat dan besar. Anjing ini sangat kuat tetapi tidak merbahaya kepada manusia. American Kennel Club telah mengiktiraf baka ini sebagai baka yang lain/terpisah pada tahun 1936.

Catatan

Persamaan pada penampilan baka ini yang begitu hampir dengan American Pit Bull Terrier yang ganas dan tidak adil bagi jenis anjing ini.

This breed resembles its English ancestor, the Staffordshire Bull Terrier, although it is taller, heavier, and generally more substantial. This dog is very powerful, but not usually illdisposed towards people. The American Kennel Club first granted recognition of the American Staffordshire Terrier as a separate breed in 1936.

REMARKS

The close similarity in appearance of this breed to the notorious American Pit Bull Terrier has not served to enhance its reputation recently.

American Staffordshire Terrier

Country of origin	USA	First use	Baiting bulls	Origins	1800s
Height	43-48cm (17-19in)	Weight	18-23kg (40-50lb)	Temperament	Intelligent, determined

Dogue de Bordeaux

(nama lain: French Mastiff)

Negara asal : Perancis
 Ketinggian : 58 - 69 cm
 Berat : 36 - 45 kg
 Perilaku : Berani

Dahulu kala berasal daripada stok Mastiff, Dogue de Bordeaux merupakan baka yang sangat kuat, mempunyai struktur muka dan kepala yang melengkung. Kepalanya mungkin sebagai terbesar dalam dunia canine.

Catatan

Pembiakbakaan secara teliti telah menstabilkan baka anjing ini. Sebuah program pembiakbakaan khas telah diwujudkan pada tahun 1960an.

Descended from ancient mastiff stock, the Dogue de Bordeaux is a very powerful breed with a well-furrowed face and a head so massive it could be the largest in the canine world.

REMARKS

Careful breeding has pacified these dogs. A special breeding programme was established in the 1960s.

Dogue de Bordeaux

Country of origin	France	First use	Hunting game, guard dog	Origins	300s
Height	58-69cm (23-27in)	Weight	36-45kg (80-100lb)	Temperament	Determined, fearless

Estrela Mountain Dog

(nama lain: Cão da Serra da Estrela)

Negara asal : Portugal
 Ketinggian : 62 - 72 cm
 Berat : 30 - 50 kg
 Perilaku : Setia, aktif

Dua jenis bulu khusus dikaitkan dengan Estrela Mountain Dog. Bulu yang lebih panjang dan lebat berbanding dengan bulu yang sama tetapi adalah lebih halus. Saiz yang besar dan salakkan yang kuat boleh menjadikan anjing ini sebagai lawan yang hebat tetapi lazimnya merupakan anjing yang mesra. Baka ini dinamakan sempena wilayah Estrela yang terletak di Portugal Tengah di mana secara tradisinya, baka ini digunakan sebagai penjaga ternakan haiwan.

Catatan

Merupakan anjing yang tidak mempamerkan nalurinya. Seperti baka lain yang kuat, anjing ini juga perlu menjalani latihan padu.

Two distinct coat types are associated with this breed. The longer-coated form displays more abundant feathering than its smooth-coated counterpart, although a double-layered coat affords both of them excellent protection against the worst of the elements. The large size and loud bark could make them formidable opponents, but they are usually friendly dogs. This breed is named after the Estrela region in central Portugal, where it was traditionally used as a flock guardian.

REMARKS

This is not a demonstrative animal. Like all powerful dogs, it requires thorough training.

Estrela Mounting Dog

Country of origin	Portugal	First use	Guarding flocks	Origins	1800s
Height	62-72cm (24½ - 27½ in)	Weight	30-50kg (66-110lb)	Temperament	Loyal, active

German Shepherd Dog

(nama lain: Deutscher Schäferhund, Alsatian)

Negara asal : Jerman
 Ketinggian : 57 - 62 cm
 Berat : 34 - 43 kg
 Perilaku : Bijak

Ciri-ciri fizikal iaitu badan yang agak memanjang dan mempunyai susuk tubuh yang tegap. German Shepherd Dog adalah antara baka paling popular di dunia. Banyak digunakan dalam pelbagai situasi seperti operasi mencari, menyelamatkan dan membimbing orang buta. Bentuk bulu panjang dan licin serta bulu kusut telah dikenalpasti sebelum ini tetapi pada masa kini, hanya bentuk bulu pendek sahaja yang diterimapakai bagi tujuan pertunjukan. Kadangkala, baka berbulu panjang juga masih dihasilkan sehingga ke hari ini. Baka German Shepherd Dog pertama kali dipamerkan di sebuah pertunjukan di Hanover, Jerman pada tahun 1882.

Catatan

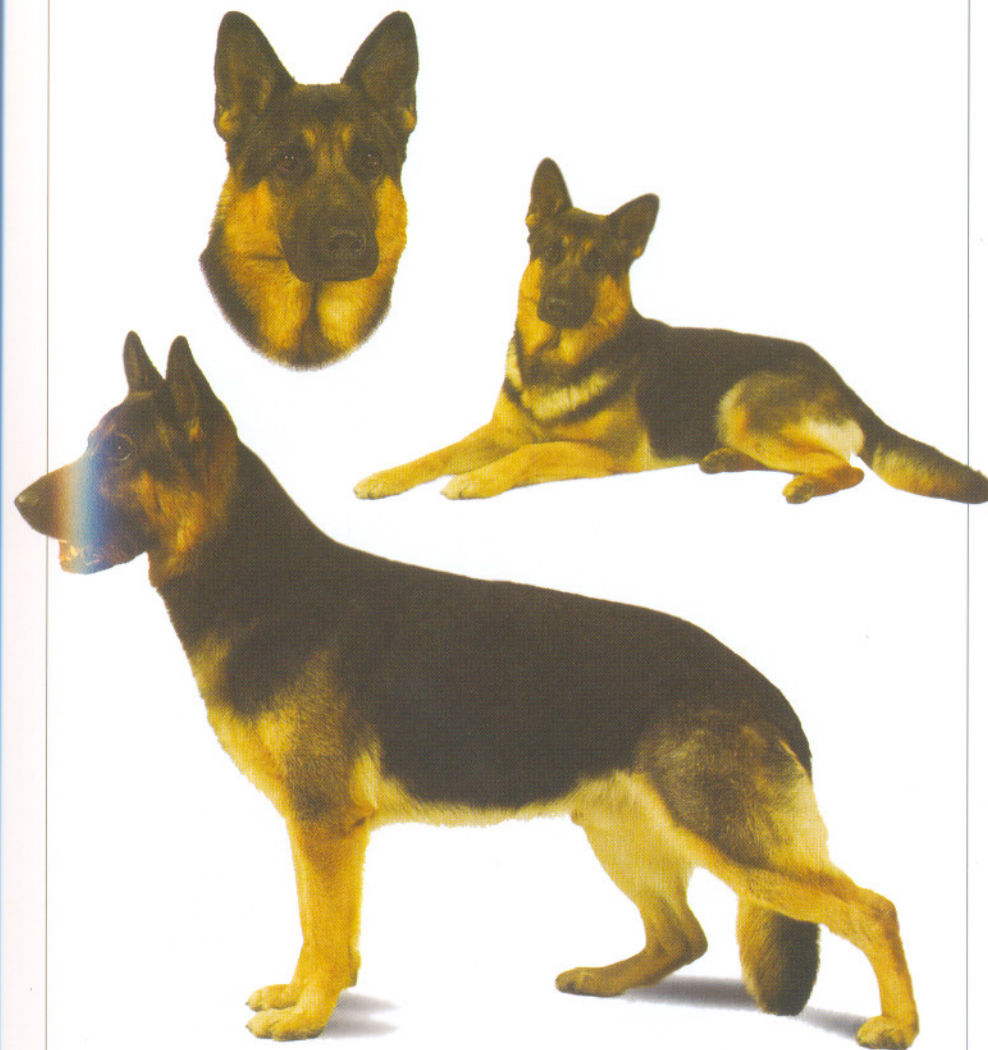

Warna putih (dalam baka ini) tidak digemari, namun hanya tanda yang kecil dan samar sahaja yang dibenarkan.

With a slightly elongated body and a strong, muscular build, the German Shepherd ranks among the most popular breeds in the world. A versatile and enthusiastic worker, it is used in many capacities, including search and rescue and guiding the blind. At one time, smooth-, long-, and wire-haired forms is accepted for show purposes. Occasionally, long-haired German Shepherds are still produced. Although its working ancestry dates a great deal further back, the modern German Shepherd was first exhibited at a show Hanover, Germany, in 1882.

REMARKS

White coloration is not favoured in this breed, with only small light markings being permitted.

German Shepherd Dog

Country of origin	Germany	First use	Herding sheep	Origins	1800s
Height	57-62cm (23-25in)	Weight	34-43kg (75-95lb)	Temperament	Intelligent, responsive

Groenendael

(nama lain: Chien de Berger Belge)

Negara asal : Belgium
 Ketinggian : 56 - 66 cm
 Berat : 28 kg
 Perilaku : Patuh, setia

Berbulu hitam merupakan ciri yang mudah untuk membezakan Groenendael daripada tiga baka lain yang lazim, dimana ianya diklasifikasikan di bawah anjing Belgian Shepherd. Anjing ini mempunyai ciri-ciri yang hampir sama, namun berlainan dari segi warna dan bulu panjang. Pembiakbakaan baka ini bermula pada tahun 1890. pada masa itu, dua ekor anjing berbulu hitam dibiakkan dan menjadi asas kepada pembentukan baka ini.

Catatan

Di Amerika Syarikat, Groenendael merupakan satu-satunya baka yang dianggap sebagai Belgian Shepherd. Tuervuren dan Malinois dikenali sebagai baka yang berbeza di bawah nama masing-masing.

Its characteristic black coat easily distinguishes the Groenendael from the other three breeds typically grouped under the general heading of Belgian shepherd dogs. These dogs are all of a similar type, differing only in terms of their coloration and coat length. The breeding of the Groenendael began by chance in about 1890 Nicholas Rose, owner of the Belgian cafe du Groenendael, bred a black puppy, and obtained another. This pair formed the basis of the breed.

REMARKS

In the USA, the Groenendael is the only dog considered to be a Belgian shepherd: the Tervuren and Malinois are recognized as separate breeds under their own names.

Groenendael

Country of origin	Belgium	First use	Herding stock	Origins	1200s
Height	56-66cm (22-26in)	Weight	28kg (62lb)	Temperament	Obedient, loyal

Malinois

(nama lain: Belgian Malinois,
Chien de Berger Belge)

Negara asal : Belgium
Ketinggian : 56 - 66 cm
Berat : 28 kg
Perilaku : Patuh, setia

Malinois merupakan satu-satunya anjing Belgian Shepherd yang berbulu pendek. Baka ini dikatakan baka tertua yang berasal dari kawasan sekitar Malines di Belgium. Minat anjing meningkat setelah anjing berkurangan digunakan.

Catatan

Baka ini memperoleh warna dewasa sepenuhnya apabila mencapai umur 18 bulan.

The Malinois is the only belgian shepherd dog with a short coat. It is also reputedly the oldest form, originating from the vicinity of Malines in Belgium. Rather ironically, it was only when the working value of this hardy dog declined, at the end of the last century, that interest was rekindled in it.

REMARKS

The breed obtains its full adult coloration by the time it is 18 months old.

Malinois

Country of origin	Belgium	First use	Herding stock	Origins	1200s
Height	56-66cm (22-26in)	Weight	28kg (62lb)	Temperament	Obedient, loyal

Miniature Bull Terrier

Negara asal : Great Britain

Ketinggian : 25 - 35 cm

Berat : 11 - 15 kg

Perilaku : Berani

Miniature Bull Terrier ialah versi baka yang terkecil dalam keluarga Bull Terrier. Kepalanya hampir rata pada bahagian atas dan melengkung ke bawah hingga ke bahagian muncung. Baka ini banyak dijumpai pada era 1800an, namun kegemaran untuknya menurun masa kini.

Catatan

Miniature Bull Terrier mesra ketika bersama manusia, namun sebaliknya apabila berada didalam kelompok anjing yang lain.

This breed is smallest surviving version of the Bull Terrier and is still a strong reminder of its larger relative. The head is almost flat at the top of the skull and curves down to the tip of its powerful muzzle. Common during the 1800s, its popularity waned until quiet recently.

REMARKS

The Miniature Bull Terrier delights in human company, but tends to be less tolerant towards other dogs.

Miniature Bull Terrier

Country of origin	Great Britain	First use	Baiting bulls, ratting	Origins	1800s
Height	25-35cm (10-14in)	Weight	11-15kg (24-33lb)	Temperament	Fearless, determined

Neapolitan Mastiff

(nama lain: Mastino Napoletano)

Negara asal : Itali

Ketinggian : 65 - 75 cm

Berat : 50 - 68 kg

Perilaku : Pelindung, sentiasa berjaga-jaga

Neapolitan Mastiff mempunyai pergerakan yang perlahan, berat, gaya berjalan seakan-akan beruang, seumpama baka mastiff lain dan berkepala yang sangat besar. Dari bahagian kepala, kulit yang berlipat-lipat (dewlaps) nya di bahagian leher yang memperlihatkan (multi-chinned) dagu berlapis. Walaupun mempunyai sejarah perilaku agresif dalam pertarungan anjing, baka ini secara umumnya adalah tenang dan mesra terutamanya dengan orang yang dikenali. Keturunan baka ini mungkin berasal dari baka Molossus semasa pemerintahan Roman. Kekuatannya yang hebat digunakan untuk pertempuran dan ada juga digunakan sebagai anjing pengawal dan penarik pedati. Hanya pada tahun 1946, langkah-langkah telah diambil untuk menjaga kepentingan baka ini untuk masa hadapan oleh pelukis, Piero Scanziani.

Catatan

Secara semula jadi, baka ini adalah tidak agresif tetapi merupakan pengawal setia yang jelas sekali tidak menunjukkan perilaku Mastiff sebenar yang diperturunkan dari generasi ke generasi.

This ancient breed of dog has a slow, ponderous, bear-like gait, in common with other mastiff-type breeds, and a very large head. From the head, prominent dewlaps of skin extend in folds down to the neck, thus producing a multi-chinned appearance. In spite of its aggressive history as a fight dog, the Neapolitan Mastiff is generally a calm, placid, and friendly animal, especially with people whom it knows well. The ancestry of the Neapolitan Mastiff may extend back to the Molossus breed of Roman times. Its enormous strength has seen it used for fighting, although it has also been a guard dog and a beast of burden, pulling carts. It was only in 1946 that steps were taken, by painter Piero Scanziani, to safeguard the breed's future.

REMARKS

This huge dog is not aggressive by nature, although it will prove a loyal guardian, reflecting its mastiff ancestry.

Neapolitan Mastiff

Country of origin	Italy	First use	Guard dog, dog-fighting	Origins	100sc
Height	65-75cm (26-29in)	Weight	50-68kg (110-150lb)	Temperament	Protective, alert

Rafeiro do Alentejo

(nama lain: Portuguese Watchdog)

Negara asal : Portugal

Ketinggian : 76 cm

Berat : 43 - 50 kg

Perilaku : Sentiasa berjaga-jaga, berdikari

Rafeiro do Alentejo mempunyai badan seperti St. Bernard tetapi kepala seperti beruang. Merupakan baka terbesar bagi baka-baka *Portuguese* dan anjing yang mengerunkan. Baka ini berasal dari wilayah Alentejo yang terletak di selatan Portugal. Spanish Mastiff mungkin menyumbang kepada keturunan baka ini, begitu juga dengan Estrela Mountain Dog.

Catatan

Baka anjing ini mempunyai sifat agresif secara semula jadi dan sifat berdikari yang jelas.

This powerful dog has a body not unlike that of a St. Bernard, but has a head shaped like a bear's. This is the largest of the Portuguese breeds and is an imposing animal. This breed originated in the Alentejo region of southern Portugal. The Spanish Mastiff may have contributed to its ancestry, along with the Estrela Mountain Dog.

REMARKS

This dog has an aggressive nature, as well as a strong independent streak.

Rafeiro do Alentejo

Country of origin	Portugal	First use	Guard dog	Origins	1800s
Height	76cm (30in)	Weight	43-50kg (95-110lb)	Temperament	Alert, independent

Rottweiler

Negara asal : Jerman
 Ketinggian : 58 - 69cm
 Berat : 41 - 50 kg
 Perilaku : Pelindung

Mempunyai kekuatan dan otot yang hebat dan baka ini tenang, ekspresi yang berkeyakinan. Baka ini dibangunkan di Rottweil, Jerman di mana baka ini digunakan sebagai anjing kepada penjual daging, penunjuk arah dan penjaga ternakan lembu. Pada masa ini, Rottweiler merupakan salah satu daripada lima baka paling popular di Amerika Syarikat dan hampir mengalami kepupusan pada awal abad ke-19.

Catatan

Baka ini masih mempunyai naluri yang kuat terhadap ruang teritorinya dan akan berkelakuan ganas apabila diganggu.

Enormously powerful and muscular, this breed has calm, self-assured expression which reflects a tranquil temperament. Its coloration is black, with distinctive symmetrical tan markings. It is responsive to training and an enthusiastic worker. The Rottweiler was developed in German town of Rottweil, where it was used as a butcher's dog, for droving, and for guarding cattle. Now one of the top five most popular dogs in the USA, this breed came close to extinction in the early 19th century.

REMARKS

The breed retains strong territorial instincts, and can be fierce if aroused.

Rottweiler

Country of origin	Germany	First use	Driving cattle, guard dog	Origins	1800s
Height	58-69cm (23-27in)	Weight	41-50kg (90-110lb)	Temperament	Protective, determined

Staffordshire Bull Terrier

Negara asal : Great Britain

Ketinggian : 36 – 41 cm

Berat : 11 - 17 kg

Perilaku : Berani, mempunyai keinginan yang sangat tinggi

Baka Staffordshire Bull Terrier yang mempunyai bulu yang licin menggambarkan kekuatan dan ketangkasan yang dimiliki. Warna bulunya mempunyai pelbagai jenis. Baka ini berasal dari Staffordshire, England dan keturunannya menunjukkan kacukan dengan baka Bulldog dan beberapa baka Terrier yang lain.

Catatan

Walaupun dibiak asalnya untuk anjing pertarungan, namun ketaatan dan kesetiaannya adalah terbukti.

This smooth-coated breed gives the appearance of power and strength coupled with agility and athleticism. Coat coloration is very varied. This powerful terrier originates from the country of Staffordshire, England, and its ancestry displays crossings with the Bulldog and a variety of terrier breeds.

REMARKS

Although bred originally for dog fighting, its loyalty and devotion is legendary.

Staffordshire Bull Terrier

Country of origin	Great Britain	First use	Dog fighting, ratting	Origins	1800s
Height	36-41cm (14-16in)	Weight	11-17kg (24-38lb)	Temperament	Plucky, strong-willed

Tervuren

(nama lain: Belgian Tervuren,
Chien de Berger Belge)

Negara asal : Belgium
Ketinggian : 56 - 66 cm
Berat : 28 kg
Perilaku : Patuh, setia

Tervuren tergolong dalam kumpulan anjing Belgian shepherd yang serupa dengan Groenendael namun berbeza dari segi warna bulu. Bagi membezakan rupa, fokus lebih tertumpu kepada warna di mana warna bulu Tervuren adalah lebih gelap di hujungnya yang boleh dilihat daripada belakang, sisi badan dan bahu terutamanya pada jantan dewasa. Tervuren betina mempunyai bulu yang lebih pendek. Pembentukan baka Tervuren terhasil di bawah bimbingan Professor Reul di Belgian School of Veterinary Science pada tahun 1891.

Catatan

Berasal dari tempat yang sama seperti Belgian Shepherd lain, baka yang mempunyai persamaan dengan baka Groenendael ini dipamerkan selepas pembiakan di antara dua Groenendael untuk menghasilkan anak anjing Tervuren.

This member of the Belgian shepherd dog group is identical to the better-known Groenendael apart from its coat coloration. As a distinguishing feature, much emphasis is placed on the coloration-each of the Tervuren's hairs has a dark tip, creating an impression of blackening on the back, ribs, and shoulders, especially on a mature male. the bitch has a shorter coat than the dog. The Tervuren was developed under the guidance of Professor Reul at the Belgian School of Veterinary Science in 1891.

REMARKS

Sharing the same origin as all the Belgian shepherds, this robust breed's particular close relationship with the Groenendael is demonstrated when the mating of two Groenendaels occasionally results in the birth of Tervuren pup.

Tervuren

Country of origin	Belgium	First use	Herding stock	Origins	1890s
Height	56-66cm (22-26in)	Weight	28kg (62lb)	Temperament	Obedient, loyal

SEKSYEN 2: **Anjing Terlarang**

Banned Dogs

Akita

(nama lain: Akita Inu, Japanese Akita)

Negara asal : Jepun

Ketinggian : 60 - 71 cm

Berat : 34 - 50 kg

Perilaku : Aktif, berdikari

Akita mempunyai telinga yang tegak dan ekor yang melengkung ke arah badan menandakan baka ini berasal daripada stok spitz. Kepalanya besar dan lebar mempamerkan ekspresi seperti beruang. Baka Akita dikatakan berasal dari wilayah Akita, di kepulauan Honshu. Baka ini dahulu digunakan secara berpasangan untuk tujuan berburu.

Catatan

(Baka ini kebanyakannya dijumpai di negara Jepun dan merupakan sejenis baka yang garang dan akan menyerang manusia jika diganggu). Akita secara rasmi sebagai sebahagian daripada warisan kebangsaan Jepun pada tahun 1931.

The erect ears, and tail that curls forwards over its back, indicate that the powerful Akita dog is descended from spitz stock. The head is large and broad, with a very distinctive, bear-like expression. The Akita was developed by a Japanese nobleman living in exile in the province of Akita, on Honshu island. Here the dogs were used in pairs to hunt such dangerous quarry as bears.

REMARKS

The Akita was officially recognized as part of Japan's national heritage in 1931. It is a ferocious breed and will attack human if provoked.

Akita

Country of origin	Japan	First use	Hunting big game	Origins	1600s
Height	60-71 cm (24-28 in)	Weight	34-50 kg (75-110 lb)	Temperament	Active, independent

American Bulldog

(nama lain: Old Country Bulldog)

Negara asal : Amerika Syarikat
 Ketinggian : 48 - 71 cm
 Berat : 30 - 58 kg
 Perilaku : Aktif, gagah

American Bulldog dikatakan hampir serupa dengan bentuk lama British Bulldog pada abad ke-16 asalnya digunakan sebagai umpan dalam laga lembu. Kepalanya besar serta leher dan bahunya tegap dan kuat. Asal stok baka asli ini dibawa masuk dari Britain dan dibawa ke Amerika Syarikat dan ianya menjadi terkenal sebagai anjing pemburu dan ladang (*field dog*)

Catatan

Baka ini merupakan anjing kerja yang mempunyai variasi yang luas dari segi ketinggian dan berat badan berbanding dengan baka yang sama di Britain yang digunakan sebagai anjing kesayangan dan baka untuk pertunjukan.

This powerful dog is thought to be similar to the old form of 16th-century British bulldog, a breed used for bull-baiting. The head of the American Bulldog is large, and the neck and shoulders hugely muscled. Settlers brought the original bulldog stock from Britain, and their versatility as hunters and farm dogs ensured their popularity in the USA.

REMARKS

The American Bulldog is still very much a working dog and so there is a wider variation in height and weight than there is with its British counterpart which has become a companion and show breed.

American Bulldog

Country of origin	USA	First use	Guarding farms, fighting	Origins	1700s
Height	48-71cm (19-28in)	Weight	30-58kg (65-130lb)	Temperament	Bold, lively

American Pit Bull Terrier

(nama lain: Pitt Bull Terrier, American Pitt Bull)

Negara asal : Amerika Syarikat
 Ketinggian : 46 - 56 cm
 Berat : 23 - 36 kg
 Perilaku : Berani

American Pit Bull Terrier adalah baka yang sangat ditakuti di dunia pada masa ini. Mempunyai kepala yang lebar, rahang yang sangat kuat dan otot yang tebal pada bahagian leher dan badan. Baka ini dibiakkan khusus untuk pertarungan anjing dan masih digunakan bagi tujuan ini sehingga ke hari ini secara tidak sah. Baka ini terhasil daripada kacukan Staffordshire Bull Terriers dengan bulldog.

Catatan

Di UK, pemilikan hanya untuk anjing yang didaftarkan dan dimandulkan sahaja.

This is probably the most feared and legislated against dog in the world today. The breed exudes power, with a broad, slab like head, immensely strong jaws, and a thickly muscled neck and body. To house the Pit Bull's fearsome jaws the face is particularly wide between its cheeks. This terrier was bred specifically for dog fighting and it is still used for this purpose today, often illegally. The breed descends from Staffordshire Bull Terriers crossed with bulldogs.

REMARKS

In the UK, ownership is legally restricted to registered, neutered dogs only.

American Pit Bull Terrier

Country of origin	USA	First use	Dog fighting	Origins	1800s
Height	46-56cm (18-22in)	Weight	23-36kg (50-80lb)	Temperament	Tenacious, fearless

Canary Dog

(nama lain: Perro de Presa Canario)

Negara asal : Kepulauan Canary
 Ketinggian : 55 - 65 cm
 Berat : 38 - 48 kg
 Perilaku : Berani

Canary Dog mempunyai persamaan yang sangat kuat seperti Perro de Presa Mallorquin. Bentuk badannya tegap dan mempunyai bentuk kepala segi empat seperti anjing baka mastiff. Fawn atau brindle adalah warna bulu yang biasa walaupun tanda-tanda putih boleh kelihatan dan bulunya adalah pendek serta kasar pada keseluruhan badan. Baka ini berasal daripada kacukan di antara Bardino Majero yang telah pupus dengan Mastiff dan mula diperkenalkan di Canaries pada tahun 1800an. Dihasilkan khusus bagi pertarungan anjing.

Calatan

Baka ini hampir pupus pada tahun 1960an berikutan kepada larangan terhadap aktiviti pertarungan anjing namun bilangannya kini sudah pun bertambah.

Bearing a strong likeness to the Perro de Presa Mallorquin, the Canary dog is a powerfully built, square-headed, mastiff-type dog. Fawn or brindle is the usual coloration, although white markings are also seen, and the coat itself is short and rough over slightly mobile skin. The ancestry of the Canary Dog involved crosses between the extinct Bardino Majero and the Mastiff, the latter being developed in Great Britain and introduced into the Canaries in the 1800s. The Canary Dog was developed specifically for dog fighting.

REMARKS

Now recovering in numbers, this breed was almost extinct by the 1960s due to the banning of dog-fighting in its homeland

Canary Dog

Country of origin	Canary Islands	First use	Dog fighting	Origins	1800s
Height	55-65cm (21 1/2-25 1/2 in)	Weight	38-48kg (84-106lb)	Temperament	Determined, forceful

Dogo Argentino

(nama lain: Argentinian Mastiff)

Negara asal : Argentina
 Ketinggian : 61 - 69 cm
 Berat : 36 - 45 kg
 Perilaku : Gagah, berani

Dogo Argentino ialah anjing yang kuat dan berwarna putih yang merupakan satu di antara beberapa baka yang dihasilkan di Amerika Selatan. Mempunyai kepala berbentuk segi empat yang menandakan keturunan asalnya daripada mastiff dan dikenali kerana ganas, tidak gentar secara semula jadi dan kebiasaannya digunakan untuk memburu. Meski pun begitu, anjing ini boleh dipercayai dan sangat setia. Baka ini berasal daripada *Old Fighting Dog* yang mana asalnya adalah dari Sepanyol. Dibawah tunjuk ajar pengasas baka iaitu Dr. Antonio Martinez merupakan kacukan dengan Boxer bagi menghasilkan baka yang mempunyai sifat patuh kepada manusia.

Catatan

Anjing ini diharamkan pemeliharaannya di Great Britain berikutan kepada kebimbangan terhadap sifat nalurnya.

One of the few breeds developed in South America, the Dogo Argentino is a powerful dog, invariably white in colour. It has a strong, square-shaped head, indicative of mastiff origins. Notorious for its aggressive, fearless nature, it was originally used to pursue big cats in its homeland. It is, nevertheless, reputedly trustworthy with people and is exceptionally loyal. The breed is descended from the Old Fighting Dog, which originated in Spain. Crosses with other breeds, most notably the Boxer, took place under the guidance of the breed's founder, Dr. Antonio Martinez, to produce a more biddable temperament.

REMARKS

This dog is banned in Great Britain due to concerns about its temperament.

Dogo Argentino

Country of origin	Argentina	First use	Hunting pumas and jaguars	Origins	1920s
Height	61-69cm (24-27in)	Weight	36-45kg (80-100lb)	Temperament	Bold, brave

Fila Brasileiro

(nama lain: Brazilian Mastiff)

Negara asal : Brazil
 Ketinggian : 61 - 76 cm
 Berat : 41 - 50 kg
 Perilaku : Gagah, agresif

Fila Brasileiro adalah hasil daripada kombinasi stok mastiff yang kuat dengan *Bloodhound*, memperlihatkan lipatan kulit yang jelas di atas kepalanya yang luas sehingga ke bahagian leher. Pertalian yang rapat dengan *Bloodhound* dapat dilihat melalui deria baunya yang sangat tajam dan muncung yang panjang. Pertama kali dibiakkan untuk sifatnya yang ganas bertujuan untuk mengurangkan populasi kucing liar dan mengawal pergerakan lembu di ladang.

Catatan

Anjing agresif yang digeruni ini turut digunakan untuk menjejaki hamba abdi yang terlepas pada masa dahulu.

The result of the combination of powerful mastiff stock with the Bloodhound, the Fila Brasileiro displays distinctive folds of skin on its huge head, which extend on to the neck. Further links with the Bloodhound can be detected from its unerring sense of smell and elongated muzzle. Aggression was first bred into the Fila Brasileiro for bringing down wild cats and for controlling cattle.

REMARKS

This fearsome breed was also used for tracking down escaped slaves.

Fila Brasileiro

Country of origin	Brasil	First use	Hunting big game	Origins	1800s
Height	61-76cm (24-30in)	Weight	41-50kg (90-110lb)	Temperament	Bold, aggressive

Kai Dog

(nama lain: Tora Dog)

Negara asal : Jepun
 Ketinggian : 46 - 58 cm
 Berat : 16 - 18 kg
 Perilaku : Berdikari

Kai Dog yang tegap dan mantap dihasilkan dengan baik di mana kakinya yang kuat menjadikannya sesuai bagi tujuan memburu di kawasan yang berbukit bukau di Jepun dan mempunyai warna *brindle*. Baka yang berwarna merah dikenali sebagai *Aka-Tora*, medium bernama *Chu-Tora* dan hitam pula ialah *Kuro-Tora*. Nama baka ini berasal dari bahagian tengah Jepun yang dikenali sebagai Yamanashi. Kai pertama kali dilihat di Amerikat Syarikat pada 1951 tetapi belum bertapak pada masa ini.

Catatan

Anak anjing Kai Dog kebiasaannya dilahirkan berbulu hitam. Warna sebenar akan hanya menyerlah apabila ia besar dan matang.

The fiercely Kai Dog is a powerfully built animal with strong legs which makes it well suited to hunting in its mountainous Japanese homeland. It is invariably brindled in coloration. The red form is known as Aka-Tora, the medium is called Chu-Tora, and the black brindle form is Kuro-Tora. The name of this breed originates from part of central Japan that is now in the prefecture of Yamanashi. The Kai was first seen in the USA in 1951 but it did not become established here at this stage.

REMARKS

Kai Dog pups are usually born solid black in colour. Their distinctive bridle colouring develops only as they grow and mature.

Kai Dog

Country of origin	Japan	First use	Hunting boar and deer	Origins	1700s
Height	46-58cm (18-23in)	Weight	16-18kg (35-40lb)	Temperament	Determined, independent

Owtcharka

Negara asal : Jerman

Ketinggian : 74 - 88 cm

Berat : 46 - 82 kg

Perilaku : Berani, sentiasa berjaga-jaga

Owtcharka terdiri daripada dua jenis mengikut kawasan iaitu gunung atau dataran. Anjing jenis dataran mempunyai bulu yang lebih pendek dan tinggi manakala jenis gunung adalah lebih panjang bulunya dan lebih berotot.

Owtcharka consists of two types according to area of mountains or plains. Dog types of terrain have shorter hair and high. Mountains dog fur is longer and more muscular.

Owtcharka

Country of origin	German	First use	Guarding flock	Origins	900s
Height	74-88cm (28-36in)	Weight	46-82kg (102-180lb)	Temperament	Brave, loyal

Perro de Pastor Mallorquin

(nama lain: Ca de Bestiar)

Negara asal : Kepulauan Balearic
 Ketinggian : 48 - 56 cm
 Berat : 20.5 - 27 kg
 Perilaku : Agresif, berani

Perro de Pastor Mallorquin mempunyai muncung tirus yang memberikannya identiti tersendiri. Ekornya panjang dan tirus di penghujungnya dan mempunyai dua jenis bulu iaitu sama ada berbulu panjang atau pendek. Baka ini berasal dari kepulauan Balearic, di pesisiran pantai Sepanyol dan digunakan sebagai haiwan pelbagai guna.

Catatan

Anjing ini dibiakkan sebab ianya tahan pada kepanasan di Mediterranean dan boleh bertindak garang serta agresif.

A well-defined head and a tapering muzzle give this breed a distinctive appearance. The tail is long and tapering towards the tip. Both long- and short-haired forms exist. The Perro de Pastor Mallorquin is native to the Balearic Island, off the coast of Spain, and is a utility animal.

REMARKS

this dog was bred to withstand the heat of the Mediterranean sun, and can be fierce and aggressive

Perro de Pastor Mallorquin

Country of origin	Balearic Island	First use	Guarding farms	Origins	1700s
Height	48-56cm (19-22in)	Weight	20.5-27kg (45-60lb)	Temperament	Pugnacious, brave

Russo-European Laika

(nama lain: Karelian Bear Laika,
Lajka Ruissisch Europaisch)

Negara asal : Russia dan Finland

Ketinggian : 53 - 61 cm

Berat : 20.5 - 23 kg

Perilaku : Berdikari, berani

Russo-European Laika merupakan anjing yang dikenali melalui warna bulunya yang putih dan hitam dan telinga yang terpacak. Ekornya bergulung tetapi baka ini kebanyakannya dilahirkan tanpa ekor. Baka ini dievolusikan berhampiran dengan sempadan yang dikongsi bersama Russia dan Finland. Dikenali sebagai anjing pemburu serigala, kacukan dengan Utchak Sheepdog iaitu anjing yang garang membuka nalurinya yang luas bagi tujuan pemburu beruang.

Catatan

Anjing ini tidak boleh dipelihara sebagai anjing yang tinggal serumah atau haiwan kesayangan.

This is powerfully built dog, characterized by its black-and-white coloration and pricked ears. If present, its tail is distinctively curled, but this breed is often born without tail. The Russo-European Laika evolved near the border shared by Russia and Finland. Already an intrepid moose and wolf hunter, crossing with the fearless Untchak Sheepdog widened its role to encompass bear hunting.

REMARKS

This breed cannot be regarded as a house dog or pet.

Russo-European Laika

Country of origin	Russia and Finland	First use	Guarding farms	Origins	1700s
Height	48-56cm (19-22in)	Weight	20.5-27kg (45-60lb)	Temperament	Pugnacious, brave

Tibetan Mastiff

Negara asal : Tibet

Ketinggian : 61 - 71 cm

Berat : 64 - 82 kg

Perilaku : Berani, setia

Tibetan Mastiff mempunyai saiz yang mengagumkan dan adalah anjing pengawal yang baik, responsive kepada latihan dan lazimnya terbukti baik terhadap kanak-kanak. Ekornya terletak tinggi dan bergulung kearah sisi dan adalah lumrah untuk dipakaikan dengan kolar sebagai tanda kepada statusnya di Tibet. Ada kemungkinan bahawa baka European Mastiff pada hari ini berasal daripada Tibetan Mastiff.

The formidable size of the Tibetan Mastiff makes it an training and usually proves gentel, even with children. Its Distinctive, high-set tail curls to one side. In Tibet it is customary for the dog to wear a red yak's -hair collar as a sign of its status. It is possible that many of today's European mastiff breeds are descended from the Tibetan Mastiff.

Tibetan Mastiff

Country of origin	Tibet	First use	Guarding flocks	Origins	900s
Height	61-71cm (24-28in)	Weight	64-82kg (140-180lb)	Temperament	Brave, loyal

Tosa Inu

(nama lain: Tosa Fighting Dog)

Negara asal : Jepun
 Ketinggian : 62 - 65 cm
 Berat : 90 kg
 Perilaku : Berani

Tosa Inu mempunyai susuk badan dan otot yang tegap dan kuat serta rahang dan gigi yang sangat kukuh, menjadikannya sebagai baka anjing yang sukar ditandingi dalam sebarang pertarungan.

Catatan

Anjing agresif ini telah diharamkan (terlarang) di United Kingdom tetapi masih dipelihara di Amerika Syarikat.

A sturdy, very powerful frame and a well-muscled physique, couple with capable jaws and solid teeth, combine to make the Tosa Inu a formidable combat dog.

REMARKS

This potentially aggressive dog has been banned in the United Kingdom but it is still kept in the USA.

Tosa Inu

Country of origin	Japan	First use	Fighting dog	Origins	1800s
Height	62-65cm (24 1/2 - 25 1/2 in)	Weight	90kg (200lb)	Temperament	Stoic, relentless

IMPORT REGULATION FOR RESTRICTED DOGS

Restricted dogs

The breeds are listed in the Guide Book On Restricted and Banned Dog Breeds in Malasia. These dogs are trained for particular duties such as criminal dogs, drug dogs, guard dogs, explosive dogs or hunting dogs and programmed to attack or apprehend on command by the handlers. These dogs must not be allowed to change hands without prior notice to the designated Enforcement Authorities. Basically these dogs were bred from ancestors known for its particular abilities. There were developed and use for a particular job. If these dogs are already in the country after year 1999, **individual owners and the authorities are advised to comply the** GAHP for dogs from Department of Veterinary Services.

The breeds and any of its crosses are restricted **from import** into Malaysia. If **imported** into the country before 1997, than **individual owners and the authorities are advised to comply the followings:**

- a) Register them with the nearest Veterinary Authority.
- b) Dogs must be identified with a Malaysian ISO compliance transponder (microchip tagging device).
- c) Feed twice a day.
- d) Annual vaccination and de-worming.

DVS IMPORT REGULATIONS ON RESTRICTED DOGS

Restricted dogs guidelines:

1. All licensing authorities and the registered owners are advised to follow the GAHP Guidelines issued by the Department of Veterinary Services from time to time.
2. Ensure license is only granted to its owners "after the most careful scrutiny". If deemed necessary, additional measures on restriction could be introduced to control certain breed of dogs which have been proved to be dangerous.
3. Ensure compulsory registration and identification for all restricted dogs by the Department of Veterinary Services or any registered Veterinary Surgeon at private Veterinary Clinic.
4. Ensure compulsory neutering of all restricted dogs by the Department of Veterinary Services or any registered Veterinary Surgeon at private Veterinary Clinic.
5. When licensed dogs are in transit, the registered owner shall provide safe and comfortable mobile kennel.
6. The licensed dogs shall and must always be with its registered owner when in any public places.
7. If the licensed dogs are so required to go out of its premise to certain parks, amenity areas, public roads or any other public places, it is compulsory and at all times for registered owner:
 - a. to put a muzzle on its dogs which is securely fasten and sturdy; and
 - b. to leash its dogs with a Non-tensile Leash (< 1 meter in length).
8. **These dogs shall not be used for any illegal fights, gambling, games or hunting.**
9. The Local Authority together with the Veterinary Authority may seize and destroy any restricted dogs (whether licensed or unlicensed) or detain it at a public pound, if it is found at large in public places, not muzzled or not leashed at all and may post danger to public.

Kenneling:

(Must provide the dog shelter)

1. Department of Veterinary Services endorsed that satisfactory kenneling is provided by the owner for restraining the animal
2. Kennel made from sturdy and safe material.
3. Kennel must be roomy, well ventilated at the rear compartment.
4. Must be reliable and well-maintained.
5. Must be design so that cleaning makes easy and with disease prevention in mind.
6. The space comfortable enough for the animal to lie flat with all its limbs extended out.
7. When standing it is able to extend its neck easily at all possible angles.
8. Animal comfortable from fly bites
9. Shelter from draft, rain and direct-sun
10. Provide a confined yard adjoining the kennel.

The authorities are not responsible for any untoward mishap.

Veterinary Authority : Date :

DVS IMPORT REGULATIONS ON BANNED DOGS

The breeds and its crosses are listed below. These dogs have been known to be ferocious and must not be allowed into the country. Basically these dogs were bred from ancestors known for its killer instinct, hunting ability and bull-baiting. They were developed to be inconspicuous in size but go for the kill (usually the neck region) voraciously. They were developed and use during the war. Dogs that are already in the country after the year 1999 should be placed as in Paragraph 2 in this clause. The Director General of Department of Veterinary Services may amend the list of banned dogs as he may see fit to impose.

Signalment

Breed records: Passports no: Country of origin:.....
